Dear Mr. Johnson,

Although we have not moved in almost 30 years, we have not had the address on your certified of 7.28 in 20 years. But it did reach me, thanks to the good people in our local post office.

I am a llittle familiar with NSAM 273, have read it, do not have a copy of it, and from my recollection of it is is more that there are those who read into it that it "suggests that the JFK assassination was an important event in the Vindochina war" than that it "suggests" that.

I am not saying that from my recollection reading this into it is not justified. Only that it was not intended to be so interpreted.

On the chance that you may want those of my books you do not have I enclose a list of them.

Sincerely,

Harold Weisberg
